EXPERIENCE

University of Cincinnati

Cincinnati, OH

Classroom Technology & Programming Assistant (Full-time)

May 2026 – Present

- Lead the user interface (UI) redesign and deployment of the UC Nursing online resource platform, enhancing digital layouts, navigation hierarchy, and overall accessibility for faculty and student end-users.
- Collaborate with the Instructional Design team to engineer, prototype, and program interactive HTML resources to increase digital engagement and optimize visual learning workflows in the classroom.
- Drive front-end updates and workflow improvements for the Solstice online resource framework, eliminating application friction points.

University of Cincinnati

Cincinnati, OH

Classroom Technology Assistant (student-worker)

Nov 2025 – May 2026

- Delivered Tier II technical, hardware, network, and AV support for 20+ classrooms via Zendesk and remote diagnostics.
- Assisted in physical tech updates and setup, collaborating closely with faculty and staff to rapidly troubleshoot instructional blocks.

Find Me LLC

Remote

Cloud Infrastructure Intern

Dec 2025 – Mar 2026

- Architected AWS backend infrastructure using CloudFormation, EC2, and S3, boosting CRM system reliability and cutting deployment time by 30%.
- Authored cross-functional API documentation using Git, streamlining dev handoffs and cross-team communication.

University of Cincinnati

Cincinnati, OH

Graduate Assistant, IT Support

Dec 2024 – Oct 2025

- Resolved technical incidents for 100+ endpoints via ServiceNow, overseeing ticket lifecycles and technical escalations.
- Administered Active Directory accounts for user provisioning and permissions, closely mimicking Salesforce administration workflows.
- Utilized Microsoft Deployment Toolkit (MDT) and SCCM for automated system imaging, baseline operating system deployment, and enterprise desktop configuration across department workstations.

KL University

India

Research Assistant, Data Engineering

Jun 2023 – May 2024

- Built Python data validation ETL pipelines with Pandas processing over 10,000+ records, decreasing preparation times by 35%.
- Developed interactive reporting scripts using Python data libraries to capture metrics and generate data visualization assets.

RELEVANT PROJECTS

Content Performance Analytics Dashboard

Developer & Interface Designer

- Designed an interactive metrics dashboard across 15+ regions with dynamic filtering and visual analytics modules, mirroring CRM reporting.

Job Application Tracker

Full-Stack Developer

- Built a web tool with secure user authentication, clean visual data logs, and tracking states to master structured data pipelines.

EDUCATION

University of Cincinnati

Cincinnati, OH

Master of Science in Computer Science (GPA: 3.9)

Aug 2024 – Apr 2026
